Jumbo knit sweaters are in demand, and the military style collars that button up close. They are good for motoring. It used to be that the business in sweaters was a seasonal business, today it is an all year around business, instead of just buying them in the fall. They are good for motoring, sports wear, and for the street. This is the reason why we are featuring largely and have enlarged the department on the second floor, devoted to sweaters the year around.

## SOCIAL AND PERSONAL

(Continued from Page Three.)

### Interesting Affairs.

One of the most interesting affairs of the season was that given Monday night by Mrs. T. J. Lynch for her sister, Mrs. Edward Bethell, of Patagonia, Ariz., who has been her guest for the last week. Mrs. Bethell was a delegate from her state to the General Federation of Women's Clubs which met in New York a few days ago, and she stopped off to see her sister on her way home.

The early part of the evening was spent at the Orpheum and from there the party repaired to the Apollo where refreshments were served in a most unique and original style. It was a suffrage party and the baskets of beautiful yellow roses and marguerites were festooned with white satin ribbon fittingly painted with letters of gold—Votes for Women. The ladies represented the suffrage with a mantle of yellow ribbon over her shoulder, and the cakes were iced and lettered in the same manner. The ensemble was one of beauty and originality and Mr. Owens did himself proud in carrying out the idea to the last letter.

The guests included Mrs. Amos Payne, Mrs. B. F. Robinson, Mrs. Harvey W. Warner, Mrs. S. A. Smith, Mrs. Olanford West, Mrs. S. H. White, Mrs. Newell Hayman, Mrs. George Lynch, Mrs. L. K. Richards, Miss Scollay Page, Miss Mollie Lynch, Mrs. Lloyd Souders, Miss Florence Lynch, Mrs. Harry W. Shasta and the honor guest, Mrs. Bethell, of Arizona.

### Ice Cream Social.

The Ladies Aid Society of the Grass-kill Methodist Episcopal church will hold an ice cream social in the church Wednesday evening. Everybody is cordially invited to attend.

### Closing Exercises.

The closing exercises at St. Mary's high school will be held in the school auditorium on the morning of June 20. As classes were organized last September in only the first two years of high school, no diplomas will be awarded on this occasion, but medals will be given for proficiency in studies. The prizes, which carry the highest distinction with them, are the Latin medal for the classical students and the shorthand medal for the boys of the business classes. Keen rivalry has been stimulated and competition is close. The names of the winners will be announced June 20.

Regular school work is carried on daily in the class rooms and will be continued without interruption to the end. Promotions will be made only in September and no public announcement of those to be promoted will be made until that time. St. Mary's has had a very successful year; excellent

work has been done in all the grades and especially in the high school classes. Hence it is believed that the number of boys who will pass on successfully to the higher classes will be large.

An announcement which has created widespread interest is that the formation of a uniformed battalion of cadets having regular military drill as part of their school work is now assured. Preliminary steps have been taken and it is expected that all the details of organization will be perfected before the summer is over, and that three companies will be in form by September 15.

### Women Meet.

### Wesleyan Concert Club Here.

The Wesleyan Concert Club, representing the West Virginia Wesleyan College, arrived in this city on No. 3 this morning and will give an entertainment this evening at the First Methodist Episcopal church under the auspices of the Epworth League of that church, beginning at 8:15 o'clock. This entertainment will consist of selections

by a made quartet, a soloist and a reader, all of whom are students who have specialized along their respective lines and who are well qualified to give an entertainment of the highest class, and the music lovers of the city will have an opportunity to listen to an entertainment rarely afforded them in this city. Everybody is invited.

## OF INTEREST TO WOMEN

### How Ribbons are Used.

It is very interesting to note how ribbons have sprung into prominence this season. There is hardly an article of dress on which they are not used. Because of their popularity they are offered in many variations.

For cascade effects, loop ideas, handings, ruchings and fancy rosettes very narrow fancy edged ribbons are used extensively. Wider ribbons are employed for elaborate bows and girdles.

Ribbon suspenders are quite prominent on many afternoon frocks of taffeta. The idea is good because it

## EN PASSENT

(By Aunt Clementine.)

A crescent moon at end of the street—  
A silver moon and star,  
And curtain of night superbly dark  
For jewels that hang afar—

And yet so near the sons of men,  
That miracle beauty there,  
It calls for man's uplifted eye  
And a puritan breath of prayer.

But when in the soft, sweet night in June,  
I searched for that most fit,  
A paunch surrounded by legs and arms,  
Stood on the walk and spit.

## NOTICE TO THE PUBLIC.

taken away the shirtwaist-and-skirt idea that otherwise would exist.

Fancy edged ribbons are used very largely for cutting hats. Pleat and crown ideas are favored, and there is a strong revival of fancy flowered, checked and striped effects in new designs and color combinations.

Bows, loops and rosettes of ribbon help materially in gaining bouffant

ideas. Quite frequently hip distenders are outlined with ribbon.

# Period Furniture

## SHERATON

The Sheraton Period Style has come into marked favor in recent years. It was originated in the eighteenth century by Thomas Sheraton, an English designer, who produced a combination of lightness and grace in his cabinet work which makes this particular style unusually attractive for modern room settings. The straight tapering legs and the inlaid bands of satin wood are its chief characteristics.

## WILLIAM AND MARY

This period of furniture originated with the ascension of Mary and her Dutch husband, William of Orange, to the English throne. It was a combination of English and Dutch designs, the latter prevailing. The characteristic features of this period are the turned legs, curved underframing and arched tops of cabinets and frames. Dining room and library furniture of this style are especially popular and may be seen on our floors.

## CHARLES II—JACOBAN FINISH

In this style the simple yet beautiful lines of the seventeenth century period are featured by twisted rope effects used in the supports and stretchers, as well as in the beautifully moulded and carved drawer fronts. The introduction of cane add a very artistic touch to the design. The cut shows this design.

## QUEEN ANNE

No more refined period has come to us from the old English masters than the very popular Queen Anne style. The pleasing features of this style are the curved lines and rounded corners in conjunction with the quaint cabriole legs and shapely underframing. These popular styles of Period Furniture may be seen on our floors in both living room and bedroom furniture.
